**Dansk Røde Kors** 

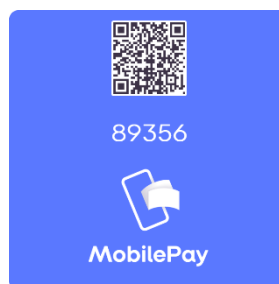

In just one week, life has undergone a radical change for millions of citizens in Ukraine. The Russian invasion into the country has put more than 1 million Ukrainians to flight while, at this writing, the estimate is that more than 1 million internally displaced refugees have set out for the European borders. The flood of refugees primarily comprises women and children. Their fathers, brothers and sons remain to fight, and the horrifying images of mothers delivering their children to relatives is nothing less than heartbreaking.

**In connection with their donation, the 6 local branches of NNF have organised a fund-raising campaign for the aid of the victims of the war in Ukraine.**

**The money raised will be forwarded in full to Danish People's Aid and the Danish Red Cross.**

**You can make a contribution via MobilePay, here:**

**Thank you for contributing!!!**

### **Danish People's Aid covers:**

The aid work comprises winter aid, the distribution of humanitarian relief together with the establishment of provisional shelters and the operation of transit centres at borders.

### **The Danish Red Cross contribution covers:**

Red Cross is present in the local neighbourhoods with lifesaving first aid, water, food, blankets and other kinds of basic emergency aid.
